## MEXICAN SITUATION

BELIEVED MUDDLE WILL SOON BE  
STRAIGHTENED OUT—HUERTA  
REPORTED TO HAVE FLED.

Washington, D. C., Nov. 14.—Prospects are declared much better for an early settlement of the Mexican problem and the Administration officials in Washington are greatly encouraged. President Wilson says: "There are elements in this case which I can not at present discuss, but which make it look to me very much more favorable." Asked about the word "favorable," he told newspaper men that he meant "favorable to a settlement."

Developments show that the great Powers are undoubtedly in accord with the American program, says the Associated Press, and that the financial blockade instituted by the United States has effectively tied the purse strings of Europe; that diplomatic pressure is being exerted incessantly on all sides at City of Mexico, that close friends of Huerta are applying their influence, and persistent reports say Huerta has gone into mysterious seclusion.

President Wilson had prepared early Thursday a statement of the situation, reciting what had been attempted in the communication presented by Charge O'Shaughnessy and John Lind, but within a few hours such favorable advices were received as to cause the president to withhold the document from publication.

One of the most important factors in the situation, which caused Washington calmly to await developments, was the report through authoritative channels that members of the Huerta official family were divided, some of them urging his resignation to avoid international complications. They were reported to be using every effort to prevail upon him to make a formal announcement of retirement at a fixed date.

Another influence that is expected to contribute to Huerta's overthrow is the extension of moral support to the Constitutionalists. It is declared that it pressed to the extremity, the American government will lift the embargo on arms to aid the Constitutionalists in composing the situation, but there is still a hopefulness among high officials that such a stand will prove unnecessary.

Advices last night from Nogales, Sonora, Mexico, were that interest was focused upon official Washington by the actors in the exchanges between President Wilson and Gen. Carranza, through William Bayard Hale. It was considered probable that the next step would come either in the form of an announcement from the American capital or a resumption of the negotiations in Nogales between Mr. Hale and the Constitutionalist chief.

Gen. Carranza was quoted as follows:

"I will not enter into transactions with the Huerta government directly or indirectly, nor will I accept mediation of anybody."

In the City of Mexico last night there was much interest as to the whereabouts of Gen. Huerta, as he had not been seen for a number of hours in his usual haunts. Rumors were in circulation that he had fled the capital, but they were not confirmed.

Charge O'Shaughnessy was still at the American Embassy, but John Lind and a number of the Embassy attaches had removed to Vera Cruz, having left Wednesday night.

The Mexicans who were recently elected to congress have been officially notified to appear and organize. Huerta some weeks ago dissolved the congress and the United States insists that he must not permit the organization of another as the result of the recent elections and must not remain in office himself.

At midnight came the announcement that some of Huerta's official family favored reopening of negotiations and that Huerta would make some concessions.

## MRS. HOPE VICE-PRES- IDENT OF FEDERATION

Tulsa, Ok., Nov. 14.—Following the election of officers yesterday the first biennial convention of the Oklahoma Federation of Women's clubs will come to a close today with sessions this morning and this afternoon and a pipe organ recital tonight.

Officers for the ensuing year were elected as follows:

Mrs. Charles R. Hume, Anadarko, 2nd district, president; Mrs. Tom Hope, Ada, 4th district, vice-president at large; Mrs. Phil Brown, Eufaula, 4th district, general federation secretary; Miss Elizabeth Boyle, Enid, 1st district, recording secretary; Mrs. M. F. Early, Muskogee, 3rd district, state treasurer; Miss Anna O'Neill, Chickasha, 5th auditor; Mrs. Kate Sutton, Cleveland, 1st district, parliamentarian.

The selection of officers to conduct the business of the state organization, shows a strong personnel and the choice of the convention was most satisfactory to the delegations from all districts, without exception.

ducted the most important part of the work of the office under extreme difficulties retires at the end of a very successful regime. The Library club of Sapulpa of which Mrs. McDougal has long been president, presented their chief executive with their compliments in the way of a big bouquet of white roses. A picture and poem, the gift of Mrs. William De Cordova, were also presented to Mrs. McDougal.

The election of officers were started at 10 o'clock Thursday morning and by 1 o'clock p. m. only the president and vice-president had been selected. Much of the early part of the afternoon was taken up with elections and a large portion of a splendid program that had been scheduled was necessarily abandoned.

The burning of the farmers' gin of Konawa has caused a large number of farmers in that section to haul their cotton to Ada. As a result this has been a banner day for receipts in Ada. At 9 o'clock this morning thirty bales of cotton were on the street at the intersection of Main and Broadway. Of course the continued good weather also contributes largely to the heavy receipts.

## EXTENT OF ALLEN STRIKE UNCERTAIN

About 1 o'clock this morning G. M. Ramsey, Homer Phelps, John Gardner and Mr. Lewis returned from a run to the Allen oil well, made Thursday afternoon in Mr. Ramsey's auto.

Mr. Ramsey stated that the well is capped and that it is impossible to get any information from those in a position to know the extent of the strike. However, some oil had been found as was evidenced by oil on the ground around the well that had been bailed out. He reports plenty of excitement and oil men arriving on every train. One man arrived last night from Little Rock, so rapidly had news of the strike spread.

On the return trip the party had an entertaining time pulling and prying the auto out of a mud hole which they attempted to cross.

## RAILROADS TO

### FIGHT 2 CENT RATE

Guthrie, Ok., Nov. 14.—The railroads of Oklahoma are inaugurating an extensive and systematic campaign for securing evidence to combat the state in the litigation involving the maximum freight rate and the 2-cent passenger law.

It appears from recent developments that while the two-cent fare has been put into effect by the railroads without awaiting the final adjudication of the Oklahoma cases, the railroads did not by this act commit themselves to submission to the Oklahoma constitution. On the contrary, they appear to have secured a sufficient delay in the litigation to work up additional evidence in opposition to the 2-cent fare. It will be recalled that following the decision of the Minnesota case and other cases by the supreme court of the United States, an agreement was entered into by which the two-cent passenger rate was put into effect in Oklahoma rather than in those states that had won their cases in the supreme court.

### To Plan United Liquor Fight.

Columbus, O., Nov. 14.—Following in the wake of the biennial convention of the Anti-Saloon League of America, which closed its four days' session yesterday, another, even larger and more important gathering in the interest of prohibition opened here today. The gathering includes representatives and duly appointed delegates of practically all temperance and prohibition organizations of the country, of the various religious and semi-religious organizations and many hundreds of persons not directly connected with any society or other organization engaged in the fight against liquor, but greatly interested in the subject for scientific, sociological, hygienic or other reasons. To bring about an amalgamation of all the temperance and prohibition forces of the country into one organization

and to plan a united educational and legislative campaign against the liquor evil is the object of the large gathering which will remain in session several days. Many noted advocates of prohibition are among those in attendance and will deliver addresses and take part in the discussions of the plans to be formulated for a concerted campaign against liquor.

### Farm Management Experts Meet.

Washington, D. C., Nov. 14.—The American Farm Management Association, with a membership embracing farm management experts in all sections of the country, began its third annual convention in this city today. The sessions will last two days and will be devoted to the consideration of a wide variety of problems relating to scientific management of farms.

The newspapers have already begun their annual harangue about shopping early. **Why We Do Not Burn Witches.**  
When the old Puritan got so excited over witches that he couldn't sleep and was willing to burn the old women to get rid of them, he showed that he did not have the steady nerve of the modern man, who sees things ten times more mysterious happening all the time and never gets at all excited. The reason why they did not have so many in the asylums at that time was because there were no asylums to which they could be sent.—Omaha World Herald.

**Bird's Nest-Caught Fire.**  
A bird's nest caused a fire at Folkestone, Kent, England, not long since. The nest, built just below a wooden window-sill at a boarding house on the water front, was ignited by sparks from a chimney, and the window-sill caught fire. The fire was subdued before any extensive damage was done.

**What Did She Think He Wanted?**  
The Millers went on a tour by motor car and arrived late one evening at a village, which was crowded for the annual fair. There was only one inn and not a bed in it to be had. The couple were tired out and felt unable to go any further, so Miller said to the landlady: "Can't you give me a bundle of hay?" "I'm sorry sir," she said. "There's not a thing left but a bit of cold roast beef."

Quick, safe, and reliable for all throat and lung troubles. Sold by

## FIRE COMPANY CALLED OUT TWICE

The fire company was called out twice in the past twenty-four hours, the first alarm being turned in about midnight when fire was discovered in the Williams pool hall on East Main. A pile of loose paper in a corner of the room was found burning and it was necessary to break through the door to reach it with the chemical. Very little damage was done.

About 2 o'clock this afternoon another alarm was turned in from the round bale gin, and another quick run made. Fire had broken out in the round bale press, presumably from friction. It was quickly subdued with the chemical before material damage was done.

### Jim McGuire Bats Out a Half Century

Detroit, Mich., Nov. 14.—Jim McGuire, one of the best known figures in baseball and at present a scout for the Detroit club, reached the half-century mark today, having been born Nov. 14, 1863. The "Deacon" as he is familiarly known, is a native of Cleveland. At the age of 20 he began his professional career with the Terre Haute club. He began the next season with the Cleveland National league team, but was released and finished the season with the Toledo American association club and was one of the players transferred at the end of that season to the Detroit club.

In 1886 the "Big Four" deal went through and McGuire was transferred to Philadelphia with Wood and Casey. The following season McGuire played with the Phillies and made a great record, but in the early part of 1888 he was again transferred to the Detroit club, and later on to his first love, the Cleveland. The Toronto club snapped him up in 1889, and in 1890 he was with the Rochester. From 1891 to 1897 he was with Washington and during the next five years he played with Brooklyn. In 1902 he jumped to the Detroit American league club and the next season he was transferred to the New York Americans. After 25 years of yeoman service upon the diamond, McGuire became manager of the Boston Americans in 1906. Later he filled a similar berth with the Cleveland club. He began the next season with the Cleveland National league team; but was released and finished the season with the Toledo American association club and was one of the players transferred at the end of that season to the Detroit club.

He was a well known figure on the diamond long before some of the present-day stars were born. Notwithstanding this fact, the "Deacon" is by no means an applicant for membership in the down and out club.

## Stork and Cupid Cunning Plotters

Many a New Home will Have a Little Sunbeam to Brighten It.

There is usually a certain degree of dread in every woman's mind as to the probable pain, distress and danger of child-birth. But, thanks to a most remarkable remedy known as Mother's Friend, all fear is banished and the period is one of unbounded joy and anticipation.

Mother's Friend is used externally. It is a most penetrating application, makes the muscles of the stomach and abdomen pliant so they expand easily and naturally without pain, without distress and with none of that peculiar nausea, nervousness and other symptoms that tend to weaken the prospective mother. Thus Cupid and the stork are held up to veneration; they are rated as cunning plotters to herald the coming of a little sunbeam to gladden the hearts and brighten the homes of a host of happy families.

Write to Bradfield Regulator Co., 131 Lamar Bldg., Atlanta, Ga., for their very valuable book to expectant mothers. Get a bottle of Mother's Friend to-day.

## PUBLIC HEALTH DEPT

### Keeping Books on Disease.

Vital statistics is a system of book-keeping used in the public health department that enables health officers to keep in close touch with the conditions of each locality, county and state. Where there are thorough and complete reports from a county of all contagious and infectious diseases, and death from all causes, the health officer is able at the end of the year, by comparing his year's work with that of the previous year to tell whether or not he has accomplished any results in the reduction of disease and the death rate from the same.

### What Typhoid Costs Oklahoma.

It is interesting to study the report for the past two years upon typhoid fever in the state of Oklahoma. Three years ago there were nearly 700 deaths reported from typhoid fever, a year ago a little over 500 and for the past year, 399. The past three years, as every one knows, have been years of drought. When we have extremely dry weather the water becomes low in the wells and cisterns and the water that is used for drinking purposes is more frequently affected by contamination than in a year where there is plenty of rain. For this reason we have a greater number of typhoid fever cases and deaths in those years in which a drought prevails than we have in others. The record of the reduction of typhoid fever from nearly 700 to less than 40 in 3 years is one that the state and county health departments are very proud of and it encourages us to persist in the campaign that we have been making. By informing the public and insisting upon having the water examined frequently; by the abating of nuisances, cleaning up our towns, urging the screening of homes and fighting flies, we hope to gain greater results in the future. Proper co-operation on the part of the general public should enable us next year to bring the death rate from typhoid fever down to at least 200 or 250 in the state of Oklahoma. This will be about one third of what it was three years ago.

### Cat Distributes Diphtheria.

A cat, the victim of a physician's experimental effort to uphold his diagnosis of a case, was the means of carrying diphtheria among children in an Oklahoma town a few days ago. It appears from an investigation that a physician insisted that a patient was suffering from membranous croup when others suspected diphtheria. To prove his diagnosis was correct the physician swabbed the throat of the patient and then applied the swab to the throat of a cat. When this information was imparted to the State Commissioner of Health he asked the County Superintendent to investigate. He reported the cat had been released and later died as did several others of the feline tribe that had become infected. Then followed several new cases of diphtheria among children of the neighborhood. The physician erred in not availing himself of the opportunity offered by the state of Oklahoma to have examined free of cost the swabbing from the patient's throat. This examination would have been made at the state laboratory at Norman and a report speedily transmitted to the physician. He would then have been able to make a diagnosis that meant something. Through this error every child in the neighborhood was endangered. For a long time cats have been known as carriers of diphtheria, therefore the result of the release of an infected animal was not surprising. The action of this physician was pure criminal carelessness. Had he kept the cat in detention after infecting it and studied the results, the blame would have been lessened. Membranous croup must be reported by physicians the same as diphtheria. Experience has taught this department that wherever we find a doctor treating more than one case of membranous croup we find that he is permitting the spread of diphtheria. The physician who infected the cat received a letter from this department calling his attention to the fact that other physicians in his neighborhood were reporting diphtheria while he was sending in death reports attributed to membranous croup. Then it was that he insisted that the disease was not diphtheria and to prove his contention experimented on the cat.

## YOUR HAIR MAY BE

## YOUR FORTUNE

Beautiful hair has made the fortune of many a woman, by adding charm and loveliness to an otherwise plain face. Nothing means more to good looks than beautiful hair. It adds to the attractiveness of every feature. Without it you can't be beautiful; with it you will be at least pretty.

To have beautiful hair, use Harmony Hair beautifier. It will improve the beauty of your hair, taking away the dull harshness and stringiness, softening and polishing every hair in your head and making it soft, silky, glossy, easier to put on and keep in place, and at the same time giving it a rich and lasting rose fragrance that will delight both you and those around you.

Very easy to apply—simply sprinkle a little on your hair each time before brushing it. It contains no oil, and will not change the color of the hair, nor darken gray hair.

To keep your hair and scalp dandruff-free and clean, use Harmony Shampoo. This pure liquid shampoo gives an instantaneous rich lather that immediately penetrates to every part of hair and scalp, insuring a quick and thorough cleansing. Washed off just as quickly, the entire operation takes only a few moments.

Both preparations come in odd-shaped, very ornamental bottles, with sprinkler tops. Harmony Hair Beautifier, \$1.00. Harmony Shampoo, 50c. Both guaranteed to satisfy you in every way, or your money back. Sold in this community only at our store—The Rexall Store—one of the more than 7,000 leading drug stores of the United States, Canada and Great Britain, which own the big Harmony laboratories in Boston, where the many

celebrated Harmony Perfumes and Toilet Preparations are made.—Gwin & Mays Drug Co., Main St., Ada, Okla.

What is more satisfying than to feel you have a friend you can trust—one that will not betray your confidence.

We have sold pianos to two generations of folks, and each year our business has grown;—the public has CONFIDENCE in our fair and honorable way of conducting our business. Our One-Price, No-Commission plan is the only method under which every customer can feel safe, and to KNOW that they are not paying, possibly \$100 more, for the same make and style piano than their neighbor paid. The pianos we are showing here in Ada have been selected for this one occasion and if you expect to buy a piano within the next year, you can't afford to overlook this opportunity.

### OKLAHOMA SCHOOL LAND TO BE SOLD

Oklahoma City, Ok., July 15.—That the one million acres of state school land lying in Texas, Beaver and Cimarron counties will be sold following a readjustment of the appraisements is the effect of a resolution adopted by the Board of Land Commissioners at today's session, directing that the statutes heretofore adopted for sale and leasing purposes be revised. No date of sale was adopted. However, it was announced that the state policy to sell in the three counties was fixed.

Members of the commission anticipate that cattlemen who have the tracts under lease for grazing purposes at three cents per acre will resist the sale possibly by means of an injunction. It is the board's intention to sell the land in two-section tracts one lot to the individual, and probably will offer the Cimarron county land first.

### LUNCHEON IN HONOR OF MMES. PITT AND BURRIS

There is nothing more pleasant or refreshing at this season of the year than to occasionally leave business cares and enjoy a brief outing. Such an event occurred Monday evening in the city park in honor of Mmes. S. M. Pitt and J. C. Burris of Van Alstyne, Texas, who are visiting relatives in Ada.

The party arrived at the park about sundown and shortly afterwards the hostesses spread a fine luncheon under the trees and all present did ample justice to everything set before them, although it was impossible to make away with all the generous quantity of good things the ladies had brought. The final course was ice cream and cake. Then after a pleasant social hour the party broke up.

Those present were Mmes. S. M. Pitt, J. C. Burris, E. C. Warren, J. H. Dorland, Capt. W. H. Fisher and wife, L. J. Crowder, Jack Moore, Claude Pitt, Lee Conger, R. C. Couch, Jesse Warren and their wives, Mrs. Bessie Owen, Homer Woods, Byron Norrell, and Misses Maud Brents, Byron Norrell, Misses Maud Brents, Grace Rushing, Mattie Scales, Louise Scales, Mabel Nettles and Ina Gray.

### JOE RUSHING RAISES

#### SOME FINE PEACHES

This morning Joe Rushing presented the News with a sack of the finest peaches seen anywhere this season. They were of the Mamie Ross variety and certainly reflected credit on Miss Mamie, their namesake. Mr. Rushing said that he did not have many of them, most of them being killed by the late frost.

When it comes to apples, however, Mr. Rushing is there with the goods. Being a progressive man, he purchased a sprayer sometime ago, and as the result of five sprayings the worms are almost exterminated from his apple trees and he has some good fruit to prove how effective this method is.

## EASY TO DARKEN YOUR GRAY HAIR

You Can Bring Back Color and Lustre With Sage Tea and Sulphur.

When you darken your hair with Sage Tea and Sulphur, no one can tell because it's done so naturally, so evenly. Preparing this mixture, though, at home is messy and troublesome. For 50 cents you can buy at any drug store the ready to use tonic called "Wyeth's Sage and Sulphur Hair Remedy." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant. You will also discover dandruff is gone and hair has stopped falling.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur and look years younger. (Adv.)

Rev. C. Stubblefield returned this morning from Oklahoma City, where he attended the meeting of the state board of the Baptist church.

The program at the Grand for this evening will be an unusually fine one. The first part will be a two-reel domestic drama entitled: "The Stolen Love." "The Motor Bug" is a pleasing comedy which will make a hit.

The Chapman-Alberson land suit, which occupied three days in trial, resulted in a verdict in favor of the plaintiff, J. C. Chapman. The court has been occupied today with the Ford Perry land suit, but it will probably go to the jury late in the afternoon.

This afternoon after the fire alarm at the round bale gin had been turned in, Coleman Lea received a bad bruise and cut about the right eye. In helping to handle the hose he was jerked to the pavement, striking his head with considerable force. However, the wound is not serious in any way.

The program at the De Sota for this evening embraces two high class dramas and two side splitting comedies. Jack Richardson, Warren Kerrigan and Vivian Rich are the stars in "Hidden Treasure Ranch." Anna Little features in "A Venetian Romance." The comedies are "Oh, What a Night," and "Two Men and a Mule."

"The Special Officer" is the title of a two-reel drama filled with thrilling situations in a get-rich-quick scheme. "Which" is a comedy of rare merit. "Cutey," the young man of dudish propensities, has trouble in deciding between two pretty twins. The climax is especially rich. Coming Wednesday: Lillie Langtry, famous players. At the Majestic.

What He Did.  
"What have you ever done for me?" complained the young man whose father had chided him for his inability to get ahead. "Well, I kept your mother from naming you Percy or Clarence."

Success in Localizing Crop.  
The little seedless grapes which furnish the so-called dried "currants" exported from Greece in large quantities and produced nowhere else in the world are a remarkable instance of localizing of an important crop in a small district. ## IF KIDNEYS ACT BAD TAKE SALTS

Says Backache is sign you have been Eating too much meat

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink. (Adv.)

## BIG STRIKE ON SOUTHERN PACIFIC

New Orleans, Nov. 13.—All the men in the Algiers shops of the Southern Pacific and all trainmen and engineers on the New Orleans-New Iberia division numbering about 1,000, were called out on strike at 7 o'clock tonight.

A train out on the road was abandoned by the crew promptly at 7 o'clock. Another crew left a freight train between Algiers and Gretna, just across the river from New Orleans, at the announced hour and walked into Algiers. The men have been admonished by their officers not to attempt violence, but tonight extra deputy sheriffs are guarding the Southern Pacific ferry at Avondale.

Conditions bordering upon paralysis exist, as the 2,500 or 3,000 men be-

tween El Paso and New Orleans directly involved constitute but a small percentage of the total idle forces.

Railways affected include all Harriman lines in Texas and Louisiana, except the Houston & Texas Central and the Houston East & West Texas, neither of which is involved directly in the present contention.

To prevent disease—  
resist disease germs

SMALLPOX is prevented by vaccination — the injection of vaccine.  
DIPHTHERIA is prevented by the injection of anti-toxin.  
These enable the body to produce substances which prevent the growth of smallpox and diphtheria germs in the blood.  
There are many other diseases, nearly, if not quite as dangerous, and far more common — typhoid fever, the grippe, bronchitis, pneumonia, catarrh, rheumatism, and a score of others — that can be prevented less painfully and more easily by making the body strong to resist germ infection.

(With Hypophosphites)

Is designed for the prevention as well as the relief of disease — by enabling the body to overcome the germs. It, at the same time, strengthens and tones the nerves, nourishes the blood, puts the entire system into a proper healthy condition to combat and successfully resist disease.

Every person not in perfect health has incipient germs of some distressing ailment in his or her system.

Cold weather, over-work, excesses of any kind, are liable to bring about just the conditions under which those latent disease germs will get the upper hand, and put you on your back "down sick."

### THANKSGIVING PROCLAMATION ISSUED BY CRUCE

Since the institution of this government it has been the fixed custom of our people to observe one day in each year as a Thanksgiving Day, on which day the people of all creeds and all conditions may return to the Giver of all good gifts thanks for His blessings during the preceding twelve months.

These recurring thanksgiving occasions have accentuated largely temporal and material blessings; bountiful harvests and growing bank accounts have been the inspiration with many; but there are those among us who feel, when the hand of adversity has fallen heavily, and the drouth and flood have come, that there is nothing left for which we should be thankful.

The spirit of this day should find a higher expression than in the return of thanks for material gifts. The greater blessings—those which lift man nearer to God and raise him above the sordid things of life, are too frequently hidden to man's vision by those material misfortunes.

The people of Oklahoma, notwithstanding the harvests have been more meager than we have wished them to be, have many things to give thanks for that are worth more than grain and fruit and gold. Material progress towards a higher individual and collective life has marked the course of this state in its travels during the past twelve months; our schools supplying mental want, and churches ministering to the spiritual need of the people, have increased in useful service, and a general advance along higher and happier lines has been the portion of our people. It is befitting, therefore, that we return thanks unto Him who shapes the destinies of the nation and state for these greater blessings, too frequently overlooked and unappreciated.

WHEREFORE, I, Lee Cruce, governor of the state of Oklahoma, do proclaim that Thursday, November 27, 1913, be and the same is set apart as Thanksgiving Day—a day upon which the people of the state are requested to pause in their daily pursuits and give thanks unto God for the things of life which are good and which He permits us to enjoy.

IN WITNESS WHEREOF, I have hereunto set my hand and caused to be affixed the great seal of the state of Oklahoma, this 13th day of November, 1913.

(Seal) LEE CRUCE, Governor.  
Attest: Benjamin F. Harrison, Secretary of State.

### OUTSIDERS PERMITTED TO TAKE MANUAL TRAINING

Spokane, Wash., Nov. 14.—By order of Principal Henry M. Hart of the Lewis and Clark high school in Spokane, the manual training department of the school is now open to the use of the public outside of school hours. While no regular classes are being organized, an instructor is present at all times to lend whatever assistance may be needed. Those taking advantage of this opportunity are required to furnish their own materials, but the shop tools and machinery of the manual training department are placed at their disposal free of charge. The machine shop in the department also is open. The department is an important adjunct of the new half-million dollar building, and is said to be one of the best equipped in the west.

### Yale and Tiger Followers Gather.

New Haven, Conn., Nov. 14.—Thousands of followers of the colors of Yale and Princeton are gathering here for the game which will award football honors to one or the other university tomorrow. Hotels, clubs, fraternity houses and dormitories have been thrown open to the visiting classmen and graduates, and a large part of the city is gayly decorated in their honor.

Tomorrow's game will be played on the fortieth anniversary of the first meeting of Yale and Princeton on the gridiron. The initial contest between the two colleges took place here Nov. 15, 1873, and was won by Princeton. No games were played in 1874 and 1875, but the two universities have met every year since. Of the thirty-eight contests Yale has won twenty, ten have been won by Princeton, and there were eight tie games.

Interest in tomorrow's game is intense, despite the fact that Yale's showing this season has not been such as to inspire her followers with an overabundance of enthusiasm. There has been no diminution in the demand for tickets, however, and a record-breaking crowd is expected to be on hand. The officials of the game will be: Referee, William Langford, Trinity College; umpire, Niel Snow, Michigan; linesman, David Fultz, Brown University.

### AFTER COUGHING TWO YEARS

Waycross, Ga., Woman Found Relief in Vinol.

Did you ever cough for a week? Then just think how distressing it must be to have a cough hang on for two years.

Mrs. D. A. McGee, Waycross, Ga., says: "I had a very heavy cold which settled into a chronic cough which kept me awake nights for fully two years, and felt tired all the time. The effect of taking your cod liver and iron remedy, Vinol, is that my cough is gone. I can now get a good night's rest and I feel much stronger in every way. I am 74 years old."

It is the combined action of the medicinal elements of the cod's livers aided by the blood-making and strength-creating properties of tonic iron which makes Vinol so efficient for chronic coughs, colds and bronchitis—at the same time building up the weakened, run-down system.

Try a bottle of Vinol with the understanding that your money will be returned if it does not help you.—Gwin & Mays Drug Co., Ada, Okla.
